To whom it concerns,

We are very much in favor of allowing state residents to utilize net metering. It seems to us that we all need to preserve energy and to use

less fossil fuels and nuclear technology. It would be beneficial and efficacious to use the sun rather than other forms of energy. Other states already use net metering, such as North Carolina, therefore the technology already exists. If you do not allow us to use net metering, we would be very interested in your reasoning.

Sincerely Gary and Melanie Manuse.

Search for grocery stores. Find gratitude. Turn a simple search into something more.
